CITY OF RESIDENCE Eagle Mountain

YEARS OF RESIDENCE 25

AGE 51

OCCUPATION Teacher

I have lived in Eagle Mountain for 25 years and have been involved in City Politics throughout that time. I have organized Meet the Candidate events since 2003 and have volunteered in various additional capacities in the community. I am a staunch advocate of informed civic engagement. I am a wife and a mother of 5 (amazing) children.

I am a Government teacher at Cedar Valley High School, and recently completed my Masters in American History and Government as a James Madison Fellow.

I am running for City Council because Eagle Mountain is at a critical juncture right now. Our population is growing quickly and we are in the midst of expansions to our sewer system, water system, transportation infrastructure, and we are seeing significant growth economically as well. We're in the middle of a City initiated School District split. How we interact with a newly forming District will be crucial. My experience and expertise will be helpful in meeting the needs and making the vital decisions that are before the Council.

For more information on my focus issues, questions and answers from residents, and endorsements, please check out my website or contact me directly, I would love to chat!
