CITY OF RESIDENCE Eagle Mountain

YEARS OF RESIDENCE 5

AGE 34

OCCUPATION Executive Director

As a nonprofit leader, community advocate, and working mom, I understand the importance of building a city where families can thrive. I'm running for City Council to ensure smart growth, transparent leadership, and a future that works for all of us.

Eagle Mountain is growing rapidly, and with that growth come real challenges. We've all felt the strain on our roads, water systems, housing, and public safety. We need leaders who will put residents first, while protecting open space and preserving the character that makes our city special.

My priorities include holding developers accountable, upgrading infrastructure, and implementing a long-term growth plan. I'll promote diverse housing options and zoning solutions that restrict high density, keep families housed and support school planning. I'll also champion water conservation efforts and bring in businesses offering local, living-wage jobs that benefit our residents.

I've dedicated my career to service, coordinating resources for families, managing volunteer programs, and advocating for those often left out of decision-making. I bring experience in public policy, nonprofit leadership, and collaborative problem-solving. I'm committed to listening, showing up, and doing the work.

I'd be honored to earn your vote. Learn more at Emily4EM.com
